FALL PRODUCT TRAINING

1st Day Morning - MPplus II Series

- MPplus II Product Overview
- MPplus II Out of Box Setup
- Working with FM and MPplus II
- Getting Familiar with MPplus II Hardware

2nd Day Morning - Installation/Power/Comm

- Installation
- Grounding and Surge Protection
- Power Supply Options
- Communication Options
- Cellular Modem Setup
- Trouble Shooting

2nd Day Afternoon - E-Series

- E-Series Product Overview
- E-Series Out of Box Setup
- Working with FM and ESeries

3rd Day Morning - E-Series

- E-Series Unit Calibration
- Getting Familiar with E-Series Hardware

PRODUCT TRAINING: This two and half day, instructor-led course, provides the participants the knowledge and skills necessary to use Eagle's standard Volume Correctors, Flow Computers, RtpM Pressure Recorders and Field Manager Software. The training is organized in two parts (diagram on back). First MPplus II, and Power/Communication. Second Power/Communication, E-Series.

The objective for the program will be to provide everyone attending the Training with a solid working knowledge of the Eagle Research® Standard Products & Field Manager™ Software. Attendees will be exposed to a variety of Eagle personnel during the training process. You are encouraged to bring a laptop computer with you so that we may load Field Manager ™ Software for you to work.

The Training Process is structured to build on prior modules as the time goes along, so attempting to pick and choose certain modules is not encouraged, as we are attempting to cover a lot of ground in a relatively short period of time.
